

FT-19MM15M

Flame retardant polyester wiring harness tape test report

adhesive tape serial number	substrate			Specification		General Features							Scope of use
	Material	color	glue	long	Width	substrate With glue thick Spend	Tensile strength (N/cm)	Elongation (%)	Steel plate peeling force (N/cm)	Operating temperature - ℃	Low speed unwinding force (N/cm)	Wear resistance:	This tape is primarily used for automotive wiring harnesses. It's easy to tear, waterproof, and age-resistant. It's also flame-retardant and fire-resistant. Using it for wrapping and positioning in cars can reduce vibration and noise.
FT-19MM15M	Polyester cloth	black	hot melt adhesive	Optional 15m	Optional 19mm	0.16-0.18	180	15	2.5	-40—105	2-5	3 00 times
